Red Clash™ Blasts Off to New Galaxies of Profit!

Red Clash is the latest addition to American SunTronics line of money makers—The ULTI-MATES.™ It has all the ingredients for BIG PROFITS!

We've taken the hot space theme a step further putting Red Clash in a class by itself.

The player moves his ship in any direction with the 8-way joystick. His attack on the aliens, with a continuous and automatic fire button, is devasting.

The many levels of play and color, the challenge, the exciting sights and sound keep the players lined up.

- *A Proven Money Maker*
- *Hot Space Theme Format*
- *8 Way Joystick*
- *Great Graphics and Sound*
- *Many Levels of Color and Play*
- *Special Black Matrix 19" Screen for Sparkling Color*
- *Jam Resistant Coin Receiver*
- *High Rated, Heavy Duty Power Supply for Reliable Continuous Operation*

RED CLASH™

Destroy Attacking Alien Ships!

Avoid Hurtling Asteroids!

Fight Your Way Through 8 Levels of Hyper Space!

Avoid Alien Mines!

This is a sampling of the challenges that face Red Clash players. Red Clash is unlike any space action video game you've ever seen in play format, video graphics, sound effects and challenge! It has an eye-catching marquee and control panel plus continually changing on-screen graphics and sound that a player just can't walk by.

The logic board is user programmable and you may adjust the difficulty of play in order to keep the challenge level up. You may also change bonus awards, select coin requirements and set sound level. Add this all up and we're sure that you'll know why it also has a large cash box.
